About Me

I graduate from Visayas State University's main campus under their degree program with a Bachelor of Science in Tourism Management specializing in Tourism Product Development. During my internship, I was fortunate to be trained by Rajah Travel Corporation, one of the country's leading travel companies. I finished the training sessions with a high ranking and received an excellent remark. Moreover, I also graduated with flying colors and sought to have an opportunity to work in a company where I can grow and expand my skills and knowledge.

Experience

I just graduated last August 2022; thus, I do not have any work-related experience. However, during my college days, I was active in extra-curricular activities and was able to represent our department in the different local and national level symposiums and seminars. Hence, these activities had helped me to enhance my skills and have given me the opportunity to work and mingle with other people. Moreover, the experiences I've gained from my academic years have taught me how to deal with other people professionally and to be able to adapt in the new environment.
