21. Describe briefly the general function of the Unit or Section

The general function of the Department of Computer Science and Technology is to handle the offering of the Bachelor of Computer Science (BSCS) degree program of the University. This involves the design and implementation of the BSCS curriculum, making sure that the delivery of instruction in Computer Science subjects is at least within the standard mandated by CHED and thereby produce globally competitive graduates.

22. Describe briefly the general function of the position.

The general function of a professor is to teach subjects in line to his/her field of expertise, conduct researches and be involved in extension activities.

	and of education considered in filling up a vacancy for this position. It is to the present incumbent. This item should be filled for all and the standard of the present incumbent. This item should be filled for all and the standard of th
